MS-DRG Assurance Program

Explore the Enjoin Advantage

Designed to enhance financial and clinical accuracy, Enjoin's comprehensive MS-DRG Assurance Program helps your facility thrive in today's quality-focused landscape. Our clinical coding analysts work directly with our board-certified physicians who are also credentialed documentation and coding specialists. By combining clinical insight with coding know-how, clients get the best of both worlds to drive revenue and clinical integrity.

- Uncover missed documentation, coding, and query opportunities.
- Promote coding accuracy to drive revenue integrity and mitigate financial risk.
- Pinpoint educational opportunities for coders, CDI specialists, and physicians.
- Ensure MS-DRG accuracy regardless of the impact on reimbursement.

Know Your Vulnerabilities, Tighten Your Review

We believe that vulnerabilities are opportunities for improvement. Our initial assessment includes 24 hour pre-bill reviews and provides an instrumental analysis to uncover:

- Inaccurate ICD-10-CM diagnosis and ICD-10-PCS procedure codes
- Incorrect MS-DRGs and/or an inaccurate CMI due to over- and under-coding
- Missed opportunities to query for conditions suggested by clinical indicators (but not documented) as well as documented conditions that lack clinical validity
- Lack of specific documentation that impact inclusions and exclusions for quality metrics

Using Pre-Bill Reviews to Drive Education

Beyond the immediate financial impact, daily pre-bill reviews of Medicare records and other payers continually drive coding and documentation compliance—yielding a 700% or more return on investment annually. These reviews also help us develop a facility-specific clinical documentation improvement program to maximize clinical and coding accuracy:

- Physician-directed clinical coding seminars to improve compliance
- Collaboration with coders and the CDI team
- Peer-to-peer specialty-specific physician education

Program Benefits

- Access to a team of experienced clinical coding analysts and physicians

- Ongoing educational support, including onsite and virtual physician-led education sessions

- Accurate reimbursement with proven ROI based on documentation and coding integrity

- Identification of targeted quality opportunities such as certain risk adjusters and inclusions/exclusions

MS-DRG Assurance Program

Why Enjoin?

Enjoin delivers a comprehensive solution for advancing clinical documentation integrity. With thirty years of direct physician leadership, our team ensures evidenced-based care is accurately reflected through precise documentation and coding for value-based reimbursement. Whether inpatient or ambulatory, the precision of healthcare data defines risk-adjusted value-based outcomes through reliable documentation and coding.

Led by expert physicians with coding and documentation credentials, our clients achieve demonstrable improvements in CMI, coding accuracy, quality metrics, risk adjustment, and physician alignment—with an average return on investment of more than 700%.

Physician-led. Evidenced-Based Clinical Approach.

Enjoin helps organizations elevate their current CDI programs to achieve clinical documentation integrity for value-based care initiatives and other alternative payment models. By focusing on inpatient and ambulatory documentation and coding precision, we help clients ensure MS-DRG accuracy as well as identify, understand, and mitigate the financial vulnerabilities associated with risk-adjusted value-based outcomes.

30-day Risk-Free Initial Assessment

Explore the opportunities with our 30-day pre-bill record review. Contact us at info@enjoincdi.com to take a deep dive into your current level of MS-DRG accuracy, and discover new revenue and education opportunities.

Enjoin Solutions:

Clinical Documentation Integrity
- Inpatient CDI
- Ambulatory CDI
- Quality Measures (CDI^e)

MS-DRG Assurance Program

Provider Development
- Physician Advisor Program
- Physician Documentation Training
- Care Team Education
